

TL600TL LAVATORY SERVICE TRUCK

The Phoenix TL600TL Lavatory Service Truck is designed to service all sizes of commercial aircraft. A man lift option is required to service wide body aircraft. Phoenix uses a two tank system for lavatory servicing. The waste tank and flush tank are separate components fabricated from 304 stainless steel and are baffled in both directions. A hinged cleanout cover is provided on the waste tank for easy access to the dump valve to remove impediments. The waste tank has a tray to store the waste hose and to prevent spillage of waste onto the top of the unit. The flush system uses an electrically actuated clutch to provide power for the hydraulic system that powers a bronze, direct drive pump. The system is actuated by mechanical switches at the service end of the vehicle.

TL600TL Lavatory Service Truck

TANK:

- Waste Tank 360 U.S. Gallons
- Flush Tank 240 U.S. Gallons
- Tanks baffled in Both Directions
- All Material is Stainless Steel
- All Fittings are Stainless Steel or Galvanized
- 4" Ball Dump Valve
- Fill Gauge on Flush Tank (Brass)
- Hinged Inspection Cover
- Waste Hose Stowage Tray w/ Stowage Nipple
- Insect Protection, Vented Tanks

TANK PLATFORM:

- Heavy Gauge 2" X 3" Structural Stainless Steel Tube Frame
- Stainless Steel Bottom and Sides
- 1/2" Exterior Grade Plywood Tank Cushion
- Removable Stainless Steel Exterior Panels
- Access Door Stainless Steel w/ Bolt-On Stainless Steel Hinges
- Aluminum Tread Plate Top Deck
- Aluminum Rear Splash Guards

TANK PLATFORM (CONT'D):

- Rear Top Corner Bumpers
- Rear Mounted Wide Body Telescopic Service Lift w/ Stainless Steel Basket

AIRCRAFT SERVICES SYSTEM:

- Electrically Actuated Engine Driven Clutch to Provide Power for Hydraulic System
- Bronze Direct Drive Water Pump
- Stainless Steel Hydraulic Tank w/ Filter
- Pumps 20 GPM @ 40 PSI
- 1" Quick Coupling
- 25' Reinforced PVC Hose
- Spring Rewind Hose Reel
- 60 Micron Filter
- Resettable Meter
- Automatic Flush Hose Drain Back
- 4" Straight Locking Coupling
- 12' 4" Reinforced Waste Hose
- Waste Inlet Swivel
- Interlock for Pumping While in Park

AIRCRAFT SERVICES SYSTEM (CONT'D):

- 1-1/4" Tank Drain Valve
- Rear Service Spotlight
- Rear Indicator Flags

OPTIONS:

- Full Insulation 2" Top and Bottom, 1" Sides, w/ 2 Tank Immersion Heaters
- Rear Compartment Hot Water Space Heater
- 120 V Rear Compartment Space Heater
- Closed Dump System
- Electric Pump
- Back Up Alarm
- Hour Meter
- Back Up Camera
- Remote Dip Stick and Oil Fill
- Hand Brake Interlock
- Grille Guard
- Rear Compartment Cold Weather Door
- Speed Governor
- Rear Step Bumper w/ Galvanized Steel Grip strut and Folding Handrails. Optional Rear Mounted Wide Body Telescopic Service Lift w/ Stainless Steel Basket.

Specifications subject to change due to product improvement, chassis manufacturer changes, or availability of chassis.
